PREFACE

The 1990 edition of *Schools in Manitoba/Écoles du Manitoba* is a comprehensive listing of all schools, school divisions and school districts. Additional information has been included and the directory has been reorganized for the convenience of the user.

New information includes the number of teachers and students for each school. (Please note that these numbers represent a count of individual teachers and students rather than a full time equivalent count.)

A key to the listings is printed below. School codes and MINET account numbers have also been provided. The school code, assigned to every school by Manitoba Education and Training, should be used as a reference number in all correspondence between schools and the department. Programs offered in schools such as English, Français, French Immersion and Heritage languages have been identified.

To accommodate frequent requests, school division listings include the number of elementary and secondary schools. For convenience, elementary schools have been arbitrarily defined as K–6 schools and secondary schools as 7–12 schools. As a result, the total of elementary and secondary schools will not necessarily correspond to the total number of schools since schools offering K–12 are counted as both an elementary and secondary school.

This directory was compiled from information submitted by school divisions in September 1989 and reflects that data as accurately as possible. Due to the department's conversion to a new computer system, access to certain data was not possible before time of printing. Therefore, the number of teachers and data found in the indices are based on June 1989 figures.
